Reset Exchange Password in iPhone

To Reset Exchange Password in iPhone when Network Password Expires and is Changed:

1. Press Cancel to get out of the exchange error on the iPhone – may have to do more than once to clear it

2. Press Settings

3. Press Mail, Contacts, Calendars

4. Press Exchange

5. Press Account (has your email address beside it)

6. Press Password and change your password to match your network password

7. Press Done (located in blue in upper corner)

8. Then press Mail and Settings (located in upper corner) to get out of those screens
